Multi Room Cryotherapy

MECOTEC
FREEZING TECHNOLOGY

BENEFITS OF SUB-ZERO TEMPERATURES

Under deep-freeze conditions reaching as low as -166°F , the body's natural metabolic response system activates a cascade of health benefits, aiding in recovery and rehabilitation, reducing pain and soreness, and elevating mood and focus.

Whole-body cryotherapy allows you to harness these benefits and provide an effective, non-invasive mode of treatment therapy that stimulates the body and boosts the overall sense of well-being.

- Increases muscle recovery rate
- Reduces inflammation, pain and soreness
- Increases energy, reduces fatigue
- Revitalizes skin
- Reduces stressors, enhances mood
- Improves circulation

EFFICIENT AND ECONOMICAL

Peak performance depends on habit so our MECOTEC multi-chambers provide maximum operational flexibility—whether helping athletes recover from their sports injuries or providing patients ongoing relief from rheumatoid and arthritic conditions. Our two and three room cryo chambers are capable of handling high-volume daily usage for up to four people in a single session. Ideal for professional sports teams or 360° rehabilitation centers.

Engineered for efficiency, we also tailor customized configurations to fit your exact needs and specifications. Our standard multi chamber comes with a convenient pre-chamber to acclimate the user just before their session start, while the multi+ chamber model offers an additional pre-chamber to handle an even higher volume of daily use.

REASONS FOR A cryoair multi / multi+

NITROGEN-FREE

Our safe, gentle cooling systems runs on clean electric power without the need for nitrogen coolant.

ECONOMICAL

Optimized for energy efficiency and German-engineered for reliability, our cryo-chambers drastically reduce maintenance and operating costs.

EXPERTISE

We invented the first electric cryo-chamber. Now, after years of expert experience, each unit is built to the highest German standards of quality and engineering.

FLEXIBILITY

Share your requirements and we can custom build a cryo-solution to meet your needs.

USER-FRIENDLY

Easy touchscreen operation with built-in intercom and video link for safe continuous use.

Rapid service
