

Trust the leading manufacturer

MECOTEC is a pioneer in the development of electrical refrigeration equipment and can draw on a wealth of experience over the company's 25-year history. By opting for cryochamber systems from MECOTEC, you're choosing TÜV-certified technology that sets the bar – and comes 100% from Germany.

MECOTEC is a place for specialists and team players alike. From research and development to manufacturing, sales and customer service, we work closely together towards a common goal: developing the very best ideas and offering the finest products.

With our two locations for development, production and logistics in Germany and our branches in Italy, France, the Middle East, the USA and Southeast Asia, we serve the needs of our clients worldwide.

cryo:one

pure electric whole-body
cryotherapy at -85°C

The One. The Only.

MECOTEC is the world leader in electric whole-body cryotherapy. After all, we invented it! And that's why we know exactly what makes a cryo chamber stand out. It needs to perform convincingly. It needs to be easy to use. And it needs to have the potential to benefit your clients' wellbeing and vitality. MECOTEC's **cryo:one** fits the bill in all three departments! It's so effective and cost-attractive that you can recoup your outlay in about two years.

Experts agree that extremely low temperatures support the medical treatment of various symptoms. That's why in both orthopaedics and physiotherapy, a host of physicians and therapists rely on the **cryo:one**. Athletes use it to reduce pain in muscles and joints while simultaneously relaxing, and also to regenerate specific areas. The **cryo:one** can also help improve your customers' appearance and poise – two key aspects in the modern world of wellness.

Benefits of sub-zero temperatures

In the cryo chamber, the human body responds to a temperature of down to -85°C. This may prompt the release of endorphins, activate the immune system, boost blood circulation and metabolism, detoxify cells, and activate healing processes. Thanks to whole-body cryotherapy, you can provide an effective, non-invasive form of treatment for all sorts of applications. Your pros of cryogenic usage are for example the following:

- Enhanced fitness
- Supported rehabilitation
- Reduced muscle-sore, pain and inflammation
- Higher energy level
- Improved regeneration
- Better lymphatic drainage and blood circulation
- Fewer wrinkles and cellulite
- Less fatigue
- Less stressors

Reasons for a cryo:one

Nitrogen-free

Cooling in the **cryo:one** requires no nitrogen. This makes our technology safe, gentle and efficient.

Economical

Our innovative technology has been optimized over many years of research and is characterized by particularly low operating costs and highest reliability.

Competent

MECOTEC invented the electric cryo chamber, so you can rely on the expertise of our engineers – from planning and production in Germany to personal aftercare.

Compact

The **cryo:one** is a compact booth which fits into any room with a ceiling height of 2.50 metres.

Easy

The **cryo:one** cryo chamber is easy to control using an app on your smartphone or tablet.
